leader of the revival.

The "open church" question, now being agitated, will also be investigated and studied by the Mexico Minister.

The "Open Church" or how the observe the interests of all classes, means that in place of services on the Sabbath, and on Wednesday evening's, that services, of various kinds, will be held at all hours of the day and every evening. This will partly consist of a night school, kinderagaten, swing school, industrial school, reading room, all forms of work for the poor and many other things that will tend toward the betterment of the community. In speaking of this phase of church work, Mr. Selecman said:

"The example was set by Christ, who even called the control of the co have two chances to get a plant lo-cated there, and if I fall in one I may be successful in the other, and I think it would take something like five acres of land and \$15.000 in cash to induce a

of land and \$15.000 in cash to induce a plant of the capacity I speak of. We have a plant here that you might call a capacity of 55 hogs per day and that stands us about nineteen thousand dollars. We have eleven and one half acres of ground. In order to leave here and build at some other point we will have to stand a loss of fully ten thousand dollars. Joplin, Mo., and Smithville, Mo., each want us and will be heard from in a day or so, also Salina, Kansas, will be heard from for my part I prefer Mexico, as she is ocated on good railroads and within each of two of the best cities in the nited States, and as we have been h he business three years, having an es-ablished trade and being on the in-
